

***"...We couldn't be happier with this nursery school!..."***

B'nai Torah Nursery School Review  
from E.L. (mom)

**"This is my son's second year at B'nai Torah Nursery.** He started in the 2s and is now in the 3s. We couldn't be happier with this nursery school! Our son loves it and asks every morning if he has "school kids". We plan on coming back for the 4s.

Our family doesn't live anywhere close to grandparents or other family, so the idea of leaving our son with someone else was difficult. **B'nai Torah was the first and only school we toured because I could see how loved and cared for he would be.** After seeing the teachers with the kids, we decided it was perfect! Also, my son was a really late talker and within a month or two of starting school he really started talking.

Their activities are age-appropriate and promote learning in a fun way. The teachers give them confidence in their ability to learn and interact with the world around them. **They teach kids how to think and investigate and solve problems in a fun, hands-on way.** The kids do so much: music, baking, art, gym, playing outside.... Every day my son comes home with a great story about his day or a new song or a cool art project.

**The teachers are so supportive, and Miss Joan is a wealth of information.** I've gone to her several times for advice, and it has always been open and helpful. If you ask her a question, the next day she will have several articles printed out for you, and she always follows up to see how it's going."
